

ATTENTION WAAE MEMBERS

For a limited time, WAAE members can order three of the CAERT Lesson Plan Library CDs at a 50% discount. The lesson plans from each of the three Libraries summarized below have been cross-walked to Wisconsin's Core Academic and Model Agricultural Education state standards. The correlations are available online at a new Wisconsin State Resource Site. On the site, you will also find Student PowerPoint presentations for each of the lesson plans.

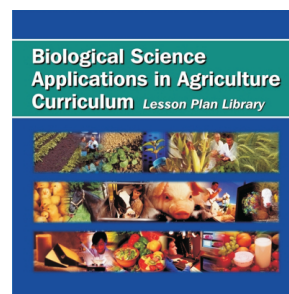

IMPORTANT: Your school purchase order must be received by September 15 in order to qualify for the special prices.

Biological Science Applications in Agriculture Lesson Plan Library

This Library offers teachers a convenient tool to plan curriculum and deliver technically sound science-based instruction in agriculture. The library features 75 ready to use lesson plans covering the applications of rigorous biological science concepts in plant, animal, and food science. Each lesson is accompanied by at least one laboratory-based activity that promotes the application of science concepts through agriculture

Order # 3264

Price: \$85.00 each

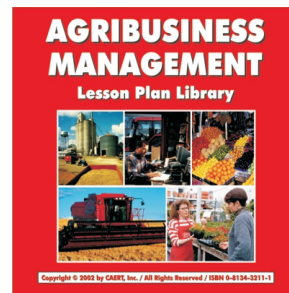

Agribusiness Management

This Library features almost 100 lesson plans on major agribusiness management and marketing topics. The first unit covers introductory agribusiness principles. Lessons on starting and operating an agribusiness follow in the second unit. The third unit addresses topics relating to agribusinesses operating in the world market. Other units cover employability and leadership skills and SAE. This Library is an excellent source of lesson plans for use in introductory and advanced agribusiness courses.

Order #3211

Price \$85.00 each

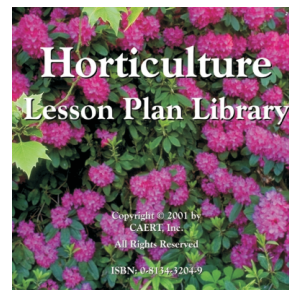

Horticulture

This Library includes nearly 140 lesson plans for courses in introductory horticulture, landscaping, floriculture, and nursery management. Important aspects of plant anatomy and physiology, propagation, nutrients, and IPM are addressed in the horticultural science unit. Greenhouse crop production, floral design, and interior plantscaping are covered in the floriculture unit. The nursery and landscaping unit addresses topics on nursery production; residential landscape design, installation, and maintenance; vegetable gardening; and tool and equipment maintenance. Additional units feature lessons on employability, horticulture business management, FFA, and SAE.

Order #3204

Price: \$85.00 each
